

# Dealer Portal & Modules

## Save Time & Resources

Helping your dealers sell more and meet customer needs means giving them tools to excel, such as marketing collateral, pricing, technical specs and more.

## Support Sales & Marketing

Don't replace the human-to-human sales engagement, enhance it. Empower your dealer sales channel with the most up to date product information and pricing specific to their operation.

## Communicate Clearly

Improve dealer relationships with event-driven communications and system notifications. Triggered alerts keep everyone on the same page helping to avoid delays with any time sensitive activities.

## Do You Use Dealers to Sell Your products? Are You Looking for a Centralized Hub for Your Dealer's Needs?

### FOR THE DEALERS

- Quickly access marketing materials and manufacturer documents
- View your specified dealer pricing and promotions
- Receive key updates from your manufacturer via email and portal notifications
- Create your own parts list with order pad

### FOR THE MANUFACTURER

- Secure logins for each dealer with permission controls
- Personalized and/or tier-based pricing availability
- Manage and post content across your network in real-time
- Communicate directly with all contacts AND confirm receipt with our notifications engine
- Integrate your key systems with Portal to house all important data
